What did you like about the course and/or instructor? Please give examples.

It really challenged me to analytically think and kept me productive. Although the class was over 3 hours long, it went by very fast because the class was interesting and interactive. The assignments were easy to understand and students were given plenty of out-of-class opportunities with the professor, etc. to learn more.

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

I don't believe there needs to be much improvement at all. The class was over the course of a very short period of time, and with this given time everything went very smoothly.

Please list additional comments and/or suggestions.

Thank you for making my first class at FSU a great one! Couldn't have asked for a better one. It will be truly memorable!

What did you like about the course and/or instructor? Please give examples.

I appreciated the fact that I was encouraged to ask as many questions as I needed or that the instructor provided a reasonable amount of course work considering the density of the course in six weeks. I also appreciated the fact that another instructor familiar with the concepts of queer theory was invited to give another in depth discussion of the material. The course textbook for the class was a little bit difficult to follow.

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

The lectures were pretty feasible to follow & learn from.

Please list additional comments and/or suggestions.

I appreciated the amount of discussion given towards the material & the literature we read.

What did you like about the course and/or instructor? Please give examples.

Prof. Grech made the class exciting and I look forward to coming to class. The course content was fair, challenging, and interesting to learn about. I enjoyed the readings we were assigned & the assignments helped me prepare for the exam.

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

Not much needs to be improved, I enjoyed class. Something that could be improved is more workshops and/or one on one w/ the professor.

What did you like about the course and/or instructor? Please give examples.

Philip Grech provides very clear instructions and course expectations. He is passionate about the course and students, making every class period enjoyable. The content of this course is very applicable to further English classes within the major and provides a solid basis for study.

What did you like about the course and/or instructor? Please give examples.

I liked the assignments and the freedom I was given to write on those topics. The instructor was also helpful and understanding when I had surgery.

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

The course had too much reading for a summer 6-week class. I had to prioritize which assignment/reading was more important to finish.

Please list additional comments and/or suggestions.

Philip was probably one of the best instructors I have had since I've been at FSU. The assignments were good for the class, just a lot of work to fit in a 6-week course.

Everything! This was one of the best courses I have taken so far at FSU & it has made me want to pursue english, literature, & creative writing even further. Excellent course & wonderful instructor, I genuinely LOVED coming to class & I looked forward to it every day! You made this traditionally boring course fun & interesting!

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

Nothing! Please do not change a thing! I thought both the course & instructor were phenomenal. One of my favorites yet!

Thank you so much for making me want to write, read, & work harder to be better! This class has most definitely reassured me that I'm where I'm supposed to be.

In all the course evals I've filled out, this is the first time I've ever bubbled "strongly agree" for stimulated my interest in the subject matter. Phil is probably one of my favorite (if not favorite) professors I've ever had at FSU. He understands his students and set realistic expectations for the course that give students the ability to work well but also learn a great deal. He's just a cool teacher who knows what he's teaching and explains complicated concepts in a really relatable way.

What aspects of the course and/or the instructor's instructional methods should be improved? Please give examples.

It's a lot of reading, but summer courses usually are.

Phil's great and deserves a raise!
